MONSTER COMPUTER

Whether you want a gaming beast or a work powerhouse, the MONSTER notebook series offers top-level performance at the most affordable prices.

MONSTER, a brand of Fokus Computer, delivers the highest level of performance to its users. Its series of notebooks, comprising gaming and workstation models, never leave you stranded.

Having served the laptop sector for nearly 9 years, MONSTER meets the needs of users with consistently high expectations fully. Its notebooks, featuring even better specifications than well-known international brands, stand out for their performance at considerably economical prices.

Taming the Games with the Monster

So confident in its series of MONSTER gaming computers designed for uninterrupted adventures, it offers a return guarantee if there's any game you can't play. These high-performance gaming computers contain the latest technology components.

Customizable modules, a crucial point for gaming enthusiasts in gamer computers, allow for a more effective gaming experience in the MONSTER notebook series. With these top-performing notebook series, you can be sure you won't be left hanging in any adventure.

Professional Tasks Require Professional Products

With MONSTER workstations, you can easily and quickly reach the most effective solutions, no matter the industry you work in. MONSTER notebook series work with the best brands in technology like Seagate, Kingston, Nvidia, Intel, using the highest capacity SSDs and SATA hard disks available. The fastest RAMs and the newest generations of processors are found in MONSTER workstations, ensuring that even the highest demanding programs run without any issues. When ordinary laptops are not enough, you can choose the MONSTER notebook series without hesitation, offering uninterrupted performance for months, even years, and providing solutions tailored to your work. The components in the workstations vary according to the specifics of your job and the tasks you want your computer to perform, ensuring the most suitable product is at your service.

When comparing other notebook prices on the market, it becomes clear that there are significant price differences even among those with the same features. The choice of operating system in the MONSTER notebook series offers a significant price advantage. You can choose the operating system of the product you wish to purchase as either Windows or Linux, and you can also choose the language as either Turkish or English, according to your preference.

MONSTER notebook, which places great importance on customer satisfaction, offers an unconditional return opportunity within the first 15 days for all its products. You can test any game or program on the product for 15 days, and if you are the slightest bit unsatisfied, you can immediately return it and get your money back.
